123 Your Street
EVERYTOWN QLD 4101

Payment of 300,000 times your allowance was given to a multinational corporation through tax breaks, subsidies and other incentives to stop them moving to Indonesia on April 2, 2011.

If you want this payment to continue:

- Grovel Humbly whenever you contact us
- Whinge as pathetically and impotently as possible when we totally fuck you over and then accept it as fatalistic as death and taxes
- Vote liberal in the next election (or vote for whoever you like; no matter who you vote for, Centrelink is always here— just like the police)
- Repeat the following to yourself ten (10) times daily: “The fact that I’m poor is because I’m genetically inferior with questionable intelligence and moral integrity and has nothing at all to do with any supposed contradictions inherent within capitalism.

7. Declaration and Signature

I declare that I am pulling the wool wherever possible and that I will make a sincere effort to fob off any attempts to get me a non-unionised, shitfully-paid job flipping hamburgers. I declare that I'd rather slowly sink into squalor over a six to twelve month period and engage in continuous warfare with the Centrelink bureaucracy than submit to the misery and degradation of wage labour or having any dealings with any sorry excuses for human beings like my last three bosses ever again. Blah Blah I declare that I haven't read the small print and that I need my dole by tomorrow because I owe half of it already

While Centrelink's Propaganda Department (Subdivision of the TruthLies and Queuing department) continues to construct the poor as 'other' to suit its particular goal – whether as 'scandalous', 'immoral', 'lazy' or 'vulnerable' – it also continues to invoke the mythical demons responsible for poverty – usually represented as single, unintelligent and promiscuous with children. Recipients of welfare are publically humiliated and degraded to such an extent that all of us become much more willing to submit, and are encouraged to fear benefits and accept crap, low waged conditions. Welfare quarantining thus represents a new technique for the State to engineer public consent, as well as track and render those receiving benefits into a transparent and policeable totality. Centrelink has very little to do with our welfare; welfare assistance is not the product of kindness from our benevolent masters – it is first and foremost a product of class struggle and it must be maintained through struggle. This is important in that while it is possible to be exempt from these changes welfare quarantining is not a threat that can be avoided individually; We can't ignore the governments push for us to accept more work and worse conditions. We have to shake off the identities that Capital has forged for us – as interchangeable tax payers, producers and consumers – and work together on ways to reclaim our positions as active, dignified human beings.
